

REMARKS

This supplemental amendment corrects a drawing error. The originally filed Figure 1 erroneously depicted the bow sight in a vertical plane offset from the vertical plane defined by the position of an arrow and the bowstring. The new Figure 1 shows the bow sight on the correct side of the bow handle. This amendment is editorial in nature and does not involve new matter nor does it raise new issues. Accordingly, entry thereof is respectfully requested.

Applicant paid a one-month extension fee for the Amendment filed on December 9, 2004 in response to the Office Action mailed September 3, 2004. If an additional fee is due for filing this Supplemental Amendment, please charge the small entity fee amount to Deposit Account No. 13-2725.

In view of the above amendments and remarks, Applicant respectfully requests a Notice of Allowance. If the Examiner believes a telephone conference would advance the prosecution of this application, the Examiner is invited to telephone the undersigned at the below-listed telephone number.

Respectfully submitted,
